

Appendix G List of Key Stakeholders

The key Stakeholders have been divided into the following categories. However some stakeholders will appear in more than one category.

- Education and Training Policy and Decision Makers
- Infrastructure provision
- Hardware provision
- Content and Service provision

This list of key stakeholders is provided as an indication of the key players, however it is not a comprehensive list of all those involved or who should be involved.

Education and Training Policy and Decision Makers

All education and policy-makers at national and local government particularly those involved in developing lifelong learning and e-learning strategies and those looking a policy issues concerning widening participation in learning. Also those organisations developing distance-learning materials including those for the leisure learning market.
